

Tool List Fall 2025

NAME: _____

We require you to have the tools listed below, at the beginning of class. Since we're able to buy most of these tools in quantity our aim is to provide them to you at a reasonable cost. Please note that you also have the option of purchasing any of these tools on your own, or bringing these tools with you if you already have them. We would encourage you to check prices in your area to compare with the prices below. Please mark each tool you would like to purchase from the school (at the price indicated). **In order for us to secure the tools for your class, please send us a check or call in a credit card payment for the total of the tools you have marked below no later than July 25, 2025.** (Due to the new tariffs and uncertainty in metals and tool pricing we have added a 15% increase to many items on our tools list.)
